

## User Manual

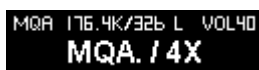

Instructions:

1. Connect PAW S1 to playback device PC/Phone
2. Run software or APP for playback
3. Play MQA file or stream

If MQA file / stream can be correctly recognized, information will be shown on LCD of PAW S1 as below:

MQA : Unfold with standard MQA

MQA. : Unfold with MQA Studio

OFS : Unfold with MQA Core (MQB)

Unfolding multiplier 4X (fixed)

Setup in Roon

In **【MQA Capabilities】**, user can choose from **【Decoder and Renderer】** and **【Renderer Only】**

**【Decoder and Renderer】** : Fully unfold with PAW S1

**【Renderer Only】** : Roon will unfold 2X and PAW S1 will do the further unfolding

**【Decoder and Renderer】** is recommended.
